PROFESSIONAL EXPERIENCES

1. **SWE-I | Gemini Solutions** [Intern Mar 2026, SWE-I Sep 2026 - Present]
   - Lead developer of Agentic SDLC, an in-house multi-agent platform on our own agent harness instead of using off-the-shelf coding agents like GitHub Copilot or OpenCode, automating BRD-to-production; cut POC time from 2 weeks to 1 day. Demoed to VPs and presales, now in an internal pilot across Gemini.
   - Built AI-driven contract testing pipeline (LLM-based test generation, review & human-approval workflow on Jenkins) with automated baseline management & confidence-based reasoning.
2. **Software Developer Intern | Nature9 Consulting - Syncloop.ai** [Jan 2025 - June 2025]
   - Designed 3+ use cases and built key tools (flowchart builder, VS Code extension, Chathire.ai, product demo), improving platform adoption.
   - Contributed to Spring Boot microservices for AI agent/team creation on Syncloop.ai, enabling SEO, access control, and workflow automation.
3. **Mobile App Developer | PGIMER Sector-12, Chd** [Oct 2024 - Jan 2025]
   - Launched Flutter Healthcare app used by 100+ patients, improving tracking by 35%
4. **Founder's Office Intern |Foundingame (London, GB)** [Aug 2024 - Sep 2024]
   - Served as a **Founder's Office Intern**, contributing to operations and UI development by streamlining processes and enhancing user interface designs.
5. **Windows Application Developer | Indian Air Force | Aircraft Health Predictor** [Oct 2023 – Feb 2024]
   - Created a Windows application for the Indian Air Force to predict aircraft engine health by processing data from the aircraft, improving diagnostics speed by 40%.

PROJECTS

1. **Healthcare App – PGIMER Sector-12, Chandigarh**
   - Built a **Flutter-based healthcare app** for patient self-management in collaboration with medical professionals.
   - Built medical history & assessment modules with smooth data flow and secure API integration.
   - App adopted by **100+ patients**, improving tracking and usability.
2. **Agentic SDLC - Multi-Agent Development Platform**
   - Built a LangGraph + FastAPI + AWS Bedrock multi-agent platform on our own agent harness that turns a BRD into tested, deployed apps.
   - Added human-in-the-loop approvals, self-healing QA in Docker, Git OAuth PRs, automated Jenkins/EC2 deployment on auto-assigned ports, plus Deploy & Maintain, AI log RCA, cost tracking, RBAC & usage limits.
3. **AI-Driven API Contract Testing & Governance Pipeline**
   - Built an LLM-powered API contract testing pipeline in Jenkins that generates, reviews,& executes tests from OpenAPI specs.
   - Introduced confidence-based auto-approval plus a human review step for flagged/low-confidence test cases.
   - Enabled incremental test generation using baselines, with clear reports showing why each test was approved or sent for review.
4. **Om Browser - Dark Pattern Detection**
   - Developed a Chromium-based secure browser focused on ethical user experience.
   - Integrated an ML-powered extension to detect and flag dark patterns on e-commerce websites.
   - GitHub: [github.com/coderiders22/Dark-Pattern-IIT-BHU-hackathon]

KEY ACHIEVEMENTS

- **1st Place** - **Astronomix Hackathon**, **ASPS** & **ACM** (2023)
- **2nd Place** - **STGI Technologies Consulting Pvt Limited** 24-Hour Coding Marathon (2024)
- **Finalist** - **IIT BHU** Dark Patterns Hackathon (2024)
- **Letter of Appreciation** - **PEC** for Android work with **PGIMER, CHD**

SKILLS

- **Languages:** Java 21(Spring Boot development), Dart, JavaScript, HTML, CSS, Python
- **Libraries/Frameworks:** Spring Boot, Next.js, React, Flutter, Tailwind CSS, Node.js, Autogen
- **Databases & Dev Tools:** PostgreSQL, Git, CI/CD Pipelines, RESTful API Dev & Integration, AWS,Docker, Jenkins
- **Web & App Development:** Full Stack development, Authentication & Authorization, Performance Optimization
- **Project & Workflow Management:** Agile Execution, Technical Documentation, Team Collaboration
- **AI & Next-Gen Tools:** AWS Bedrock, Azure OpenAI, Gemini API, GitHub Copilot, OpenAI API, Prompt Engineering (for AI-assisted automation)

EDUCATION

- B.Tech in Computer Science Engineering(Data Science) Punjab Engineering College, Chd [Nov, 2022 – June,2026]
